

## Workshop

# Topological and Algebraic Genericity II

Complutense University of Madrid (Spain)

In November 2015 we held the first *Workshop on topological and algebraic genericity* organized by the Interdisciplinary Mathematical Institute (IMI). We are pleased to announce the second edition of this workshop as a joint venture of the IMI and the research group “Análisis Funcional no lineal y geométrico”.

This workshop is mainly aimed to young researchers and anyone interested in lineability and spaceability problems. Ph.D. students are specially encouraged to attend it.
